

# OWC Mercury Pro

USB 3.1 Gen 1

## The All-New Desktop Optical

Now with an updated design, Mercury Pro is the premier drive to bring optical media back to your workflow. With a sleek, durable aluminum chassis, and high-speed USB 3.1 Gen 1 interface, Mercury Pro delivers reliable performance that matches its good looks. It's cooler, quieter, and better than ever.

Mercury Pro supports the revolutionary M-DISC format that sets the standard for long-term safe data storage. M-DISC media uses a proprietary layer made from inorganic, rock-like material for permanent data storage, protected from data rot and extremes of light, humidity and temperature change. Mercury Pro permanently engraves data into this layer, so you write once and read forever.
