

Industrial strength,  
non-marking wheels

Quick hand-install

Wheel stops prevent  
unintended motion

Built to be the best, backed  
with a Lifetime Warranty

## OWC ROVER PRO

### INGENIOUS “WHEELS ON/WHEELS OFF” DESIGN

It's time your Mac Pro starts going places. The OWC Rover Pro is a mobility solution for the 2019 Mac Pro that can be installed manually in minutes. It serves up all of the maneuverability for a fraction of the factory price. This beauty's stainless-steel housings feature 360-degree articulating wheels with non-marking rubber tread, so you move your Mac Pro while preserving floor finish. Pull it across your studio or rotate it under a desk for convenient port access. It moves silently, so you can get things done without the noise.

We're talking effortless wheels on/wheels off conversion with no tools or hassle. The Mac Pro's factory feet fit perfectly into the Rover Pro's stainless-steel housings. Pull it across the studio or rotate it under your desk for convenient port access. With Rover Pro, you can glide your Mac Pro where you want, when you want... for a fraction of the factory price.

### Key Features

- Unique: Patent-pending made in USA design
- Fast, toolless install: Hand-tightens in under 2 minutes
- Easy travel: 360-degree articulating wheel
- Smooth and silent: Non-marking soft rubber tread wheels with low friction
- Elegant: Highly polished stainless-steel matches the Mac Pro aesthetic
- Protective: Vibration-absorbing silicone rubber pad preserves factory feet finish
- Secure: Wheel stops prevent unintended movement
- Quality: Built to be the best, backed with a Lifetime Warranty
